SUMMARY

Computer Science and Engineering undergraduate student with strong academic performance and hands-on experience in software development, object-oriented programming, and data structures. Recognized with multiple Vice Chancellor’s and Dean’s Awards, with practical project experience and a growing interest in problem-solving, automation, and secure system design.

EDUCATION

Bachelor of Computer Science and Engineering Green University of Bangladesh CGPA 3.84 out of 4.00	June 2022 - Present
Higher Secondary School Certificate Shahid Syed Nazrul Islam College, Mymensingh GPA 5.00 out of 5.00	2019
Secondary School Certificate Mirza Rowsan Ali High School, Junail GPA 5.00 out of 5.00	2017

KEY ACHIEVEMENTS

Vice Chancellor’s Awards Received the Vice Chancellor’s Award in three academic semesters for maintaining outstanding academic results.	
Dean’s Awards Awarded the Dean’s Award in two academic semesters for strong academic performance.	
9th-ranked GUCC Programming Contest-01 Ranked 9th in GUCC Programming Contest-01, organized by Green University Computer Club, and received a certificate of achievement.	

SKILLS

Programming Language: HTML, CSS, JavaScript, PHP, Java, C, C++, Python Tools: MS Office Applications, G-Suite, Canva, Cisco OS: Windows, Kali Linux, Ubuntu Databases: MySQL Soft Skills: Presentation skills, Communication skills, Time Management, Public Speaking	
--	--

WORK EXPERIENCE

General Secretary, GUCC Cyber Security Society - Managed communication with 200+ members, maintaining organized updates, notices, and activity planning - Streamlined internal documentation, improving operational workflow and event preparation efficiency by 30%. - Assisted in planning 3 Cyber Security awareness events, including workshops, training sessions, and interactive campaigns.	November 2025 - Present
---	--------------------------------

PROJECTS

Vulneraai

- Automated reconnaissance, port scanning, and vulnerability detection using Linux-based security tools and Python scripting.
- Implemented AI-assisted analysis to classify vulnerabilities and recommend mitigation strategies.
- Designed for academic research and real-world cybersecurity workflows.
- **Technologies:** Python, Linux, Networking, Web Security, Automation, AI/ML, Bash, HTML/CSS/JS (UI)

Library Management System

- Developed a database-driven system to manage books, users, transactions, and fines.
- Implemented a normalized database schema, optimized SQL queries, and a Java Swing GUI.
- Demonstrated skills in database design, problem-solving, and software engineering.
- **Technologies:** Java, Java Swing, MySQL, SQL, JDBC, NetBeans IDE, XAMPP

Bus Reservation System

- Built a console-based system for bus scheduling, seat reservation, and availability tracking.
- Applied data structures, algorithms, and modular programming to manage passenger and bus records.
- **Technologies:** C++, Data Structures, Algorithms, Console-Based Programming

Hotel Reservation System

- Built a Java-based hotel management system supporting room booking, food ordering, billing, and checkout.
- Applied OOP concepts, exception handling, file handling, and multithreading for data persistence.
- **Technologies:** Java, Object-Oriented Programming, File I/O, Multithreading

VOLUNTEERING

Campus Ambassador Intern

July 2025 - January 2026

International Model United Nations (IMUN)

- Represented **International Model United Nations (IMUN)** as a **Campus Ambassador**, promoting global diplomacy and youth leadership initiatives.
- Executed **outreach campaigns** through social media and peer networks to increase conference awareness and participation.
- Collaborated with an international team while maintaining **professional ethics, data confidentiality, and adaptability** in a remote work environment.

CERTIFICATIONS & TRAINING

- **University Activation Programme** - Bangladesh ICT Division (October 2025)
- **ChatGPT Mastery: From Creative Writing to Coding Solutions** - Udemy (January 2025)
- **Ethical Hacking: Linux Privilege Escalation** - Udemy (January 2025)
- **ChatGPT Guide: Prompt Engineering Basics for Beginners** - Udemy (January 2025)
- **Introduction to Python** - Data Flair (July 2025)
- **Defensive Cyber Operations: The Blue Team & Network Security** - Udemy (February 2026)
